CO-OP STANDING

Available for third Co-op work term in Sep 2019	Have completed 6 of 8 academic terms in Aug 2019

EDUCATION

Dalhousie University, Nova Scotia   Sep 2016 | Expected: Aug 2020
Bachelor of Applied Computer Science   Certificate of Web and Mobile Development
Bishop Strachan School, Ontario   2016

RELEVANT EXPERIENCE

Information Security Coordinator | *CIBC*   Jan 2019 – Present

- Worked with Vulnerability Management, Cyber Threat Intelligence and Investigations teams.
- Adapted and improved a pre-existing Python script used to search for publicly known domains based on a set of key words.
- Researched and implemented an open source tool for the Cyber Threat Intelligence team.
- Created a program using Excel VBA to parse XML files to extract relevant and valuable CIBC information for vendor patching for the Vulnerability Management Team.
- Created a website interface for the Investigations teams to use during malicious software demonstrations.

Software Developer Intern | *Distributed ID*   May – Aug 2018

- Aided with the ongoing development of a blockchain monitoring system. Implemented a notification system to allow the user to stay up to date on data exchange.
- Assisted in the creation of a multi-platform app which will allow future customers to understand how the Distributed ID data exchange solution can be utilized within an existing system.

TECHNICAL SKILLS

Programming		JavaScript Frameworks		Database		Prototyping & Design	
BashShell	C	React	Ionic	SQL	MyPhpAdmin	Adobe XD	Balsamiq
CSS	GoLang	Angular JS				Sketch	Illustrator
HTML	Java						
JavaScript	PHP						
Python							

ACADEMIC PROJECTS

Content Management System Creation	**Learning Management System Prototype**
Created a front-end UI with the ability to add data to a database from user input, display database content and query the database using PHP and PhpMyAdmin.	Created an education website, using both low- and high-fidelity application prototypes to cater a variety of use cases and user profiles using Balsamiq and Adobe XD.
